# W-RADIANT HEATING PANELS

Warmset's **Warmglass** panels are an **innovative heating solution** made of a tempered glass, IP44 class II, surrounding **Warmset's one-of-a-kind, patented technology**.

The exceptional heating power of these panels is ensured by their natural glass beauty, which makes them an **elegant interior design feature for any environment**.

The electric heating system of Warmset panel spreads **heat uniformly throughout its surface**, thereby ensuring comfort without creating air stratification inside the room.

Warmglass panels can be equipped with a single or double **towel bar**.
